

fixed oils

Quality Vegetable Seed and Nut Oils

World Actives supplies a variety of cold-pressed, unrefined and refined fixed oils from qualified manufacturers.

Most oils are available as conventional and certified organic (USDA NOP) by Oregon Tilth. Consistent quality is always guaranteed.

Whether for single drum or truckload quantities, World Actives' positions on fixed oils translate into excellent value for our customers.

Our relationships with the world's largest producers helps us to avert surprise cost increases and to prepare for supply shortages.

Ingredient	Standard/Composition	Code
Black Currant Seed Oil	min. 14% gamma-linolenic acid (GLA)	250244
Black Currant Seed Oil	min. 15% gamma-linolenic acid (GLA)	250245
Borage Seed Oil	min. 20% gamma-linolenic acid (GLA)	250250
Borage Seed Oil	min. 21% gamma-linolenic acid (GLA)	250251
Borage Seed Oil	min. 22% gamma-linolenic acid (GLA)	250252
Borage Seed Oil	min. 23% gamma-linolenic acid (GLA)	250253
Borage Seed Oil	min. 24% gamma-linolenic acid (GLA)	250254
Evening Primrose Seed Oil	min. 9% gamma-linolenic acid (GLA)	250510
Evening Primrose Seed Oil	min. 10% gamma-linolenic acid (GLA)	250511
Flaxseed Oil - Cold-pressed	min. 50% alpha-linoleic acid	250645
Olive Oil	71% oleic acid, 16% palmitic acid, 13% linoleic acid,	251510
Olive Oil Extra Virgin	71% oleic acid, 16% palmitic acid, 13% linoleic acid,	251516
Pumpkin Seed Oil	54% linoleic acid, 28% oleic acid, 13% palmitic acid	251680
Pumpkin Seed Oil - Refined	54% linoleic acid, 28% oleic acid, 13% palmitic acid	251681
